

Starter Series iPad with Magic Arm (SSPiPadMA)

\$599

Key Features

A hardware package enabling you to create a straight-read teleprompter using an iPad or other tablet PC (iPad not included and tablet PC must be specified by QTV.)

- iPad slots into a custom-made mounting plate to hold it securely in position beneath the glass. This mount can be fitted in landscape or portrait mode.
- iPad is positioned above the lens via a small magic arm that attaches to the spotlight mount of an ENG style camera
- Designed to be used with any teleprompting App available for download from the App Store.
Please note that this software is not designed or licensed by AutocueQTV.

Included in the package

- Mounting plate for iPad or other tablet PCs (please specify which mount you require)
- Adjustable magic arm that connects to the camera spotlight mount
- Detailed assembly guide
- Full warranties - 3 years for hardware
