

## RGB/Video High Resolution Quad Viewer

# MV-410RGB

**4 split-screen system supporting mixed input of RGB signals and analog composite signals. High-resolution video output using a DVI terminal is included as standard. Supports user-created patterns.**

- Support for mixed input of RGB signals (used for computer monitor output) and analog composite signals (the commonly used video signal) (asynchronous input is possible)
- Provides a total of eight channels of input: four digital/analog RGB signal channels with the DVI-I connector, and four analog composite channels
  - \*Number of channels capable of simultaneous display: four channels (user can choose any four channels)
- RGB output with DVI-I connector is provided as standard for enabling easy usage on large screens and computer monitors
- High-resolution output: Maximum output resolution equivalent to WUXGA (1920×1200 pixels). Even with split screen, each channel's video can be monitored at high resolution.
- Layout editor comes standard: The user can freely make changes to the split-screen layout pattern from a computer
- A title can be displayed for each channel (alphanumeric characters, Japanese kanji, Japanese kana, symbols)
- An analog clock can be displayed for the time display function

## Specifications

● Video Input	Analog composite: 1.0 Vp-p, 75Ω, 4ea., BNC
Video	NTSC, PAL (mixed input and asynchronous input are possible)
PC	DVI-I connector (analog or digital), 4 inputs - Resolution (analog): 1280 x 1024, 1360 x 768, 1024 x 768 / Frequency: 60Hz - Resolution (digital): 1600 x 1200, 1280 x 1024, 1360 x 768, 1024 x 768 / Frequency: 60Hz
Video Input	- Four channels are available for simultaneously displayable input (choose from a menu for each channel). - DVI-I connector supports both analog and digital input. Each connector can be connected for just one type of input. - No frame rate conversion function between input videos and input/output videos. *If video is displayed with different frame rates, dropped frames, etc. may occur periodically.
● Video Output	DVI-I connector (analog and digital), 1 output Resolution: 1920 x 1200, 1920 x 1080, 1600 x 1200, 1280 x 1024, 1360 x 768 Frequency: 60Hz
● Quantization	8-bit
● I/O Delay	1 to 3 frames
● Split-screen Patterns	Full screen, user-selected screen
● Character Display	Display characters: Maximum of 16 characters x 1 line per input channel Character types: Alphanumeric, Japanese kana, symbols
● Tally Display	Displayed in each input screen frame (red or green)
● Time Display	Analog clock display (monthly error within ±10 sec.)
● Interfaces	RS-232C: D-sub 9-pin (male), 1 port - Control: Video output selection TALLY IN: D-sub 50-pin (female) *Shared with REMOTE IN - 4 inputs x 2 colors (red or green color frame display) TTL negative logic level signal or make-contact input REMOTE IN: D-sub 50-pin (female) *Shared with TALLY IN - Control: Switching between full screen and split-screen display TTL negative logic level signal or make-contact input LAN: 10Base-T/100Base-TX, RJ-45 (CAT5 support), 1 port - Control: Video output selection
● Layout Editor	Setting of the split-screen video size and split-screen video position
● Temperature / Humidity	0°C - 40°C / 30% - 90% (no condensation)
● Power / Consumption	100VAC - 240VAC ±10%, 50Hz/60Hz
● Dimensions / Weight	430 (W) x 44 (H) x 400 (D) mm EIA 1RU/ Approx. 5.0kg
● Accessories	Operation manual, AC cord, Rack mount brackets, CD-R (Layout editor)

Please note that the technical details shown here are provisional specifications (as of March 2008). This information is subject to change without notice.
